

At-Home VR Therapy Covered by Medicare

NEW!

Covered by Medicare

VR as DME

Durable Medical Equipment

**A new way to manage your health - at home,
covered by Medicare**

What Is VR Health Therapy?

CuraMed's VR Health is a Virtual Reality (VR) therapy device approved by Medicare as Durable Medical Equipment (DME).

Using a VR headset shipped to your home, you can follow clinically designed therapy programs to support conditions like:

Chronic Pain

Anxiety and Stress

Cognitive Training

Physical Rehabilitation

All from the comfort of home - and with no extra cost to you.

How It Works

1. Your doctor writes a prescription for the VR therapy device
2. The headset is shipped to your home (like any other medical device)
3. You follow easy, step-by-step therapy programs tailored to your needs
4. Track your progress and feel better!

- ✓ Covered By Medicare
- ✓ No In-Person Appointments Required
- ✓ No Tech Experience Needed

Want Extra Support?

You can use VR Health on your own - or choose to work with a licensed CuraMed clinician for personalized guidance and virtual check-ins. This is optional, and you can decide what's right for you.
