# PROGRESS REPORT

## Building Higher העכער און העכער

Dear Members of the Crown Heights Community, שיחוי,

As Lubavitcher Yeshiva continues building higher and higher - העכער און העכער - we wanted to share a glimpse into the incredible progress taking place throughout the expansion.

As you walk through the construction part of the building today, you can already feel it.

What not long ago was steel, scaffolding, and open concrete is quickly turning into classrooms, hallways, offices, and vibrant spaces that will soon be filled with Torah, tefillah, and the voices of our talmidim.

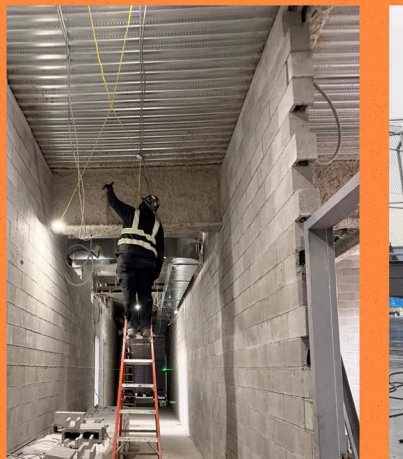

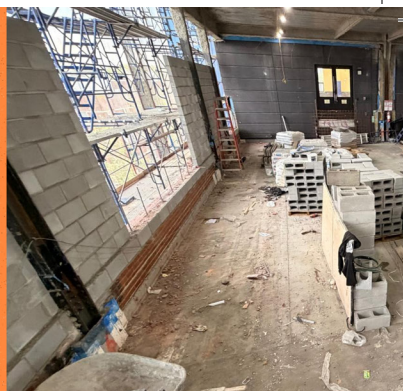

These past few weeks brought major milestones across the project.

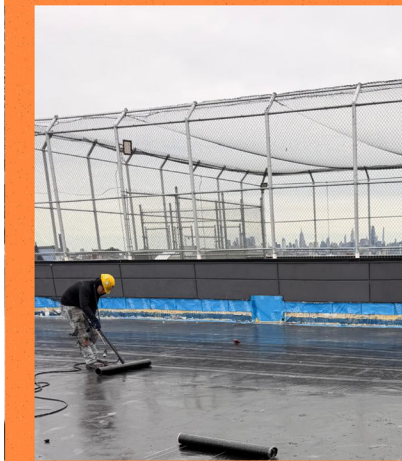

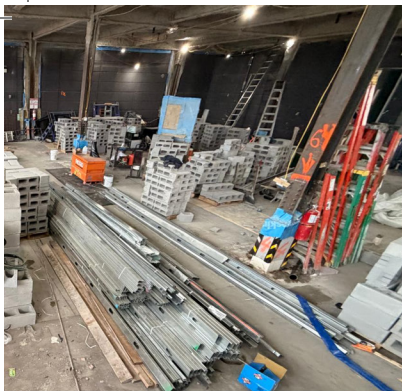

Premier Iron Works completed significant structural work on the upper floors, another major step in bringing the building fully to life.

Concrete work, led by Zalman Brook of Elite Concrete, has now been completed for the bulkhead roof slab, transforming yet another phase from plans on paper into reality.

Dynamic Electrical, under the leadership of Meir Palace, has begun running major electrical risers and infrastructure throughout the building, while also installing temporary lighting and power to keep construction moving safely and efficiently day and night.

HVAC work continues progressing steadily as Active Cooling reconnected the ERV system and completed critical rooftop and second-floor repairs and installations.

Mendy Cohen and the team at PH Works connected all roof drains and are actively roughing bathrooms and water lines on the fifth floor and roof areas.

At the same time, Mendel Wolf of Wave Masonry has completed approximately seventy percent of the exterior fifth-floor walls, while interior walls, bulkhead construction, door frames, and infrastructure openings continue moving ahead at a remarkable pace.

Prime Roofing, led by Kalman Shuchat, also completed major roofing and waterproofing work around the bulkhead and elevator shaft areas, helping secure and protect the structure as the project advances upward.

And perhaps the most exciting part, every single week the building looks different.

Behind the scenes, there is an enormous amount of coordination taking place every single day. Engineers, contractors, workers, and staff are pushing tirelessly to ensure the project moves forward safely, and efficiently.

It is all another investment in the future of our children's chinuch and in the continued growth of the Rebbe's mosdos here in Crown Heights.

Thank you to our parents, neighbors, friends, supporters, and the entire community for your continued patience, encouragement, and partnership throughout this journey.

Together, we continue going *העכער און העכער*!

*The Lubavitcher Yeshiva Administration*

אמני חזקו מענינו  
קנינו עתה וזכרו  
חילא חזקו
